

Hair Removal

Our wax contains soothing and calming ingredients, Beeswax and Azulene. Waxing is most successful when hair growth is at least 1/4" long... in most cases, at least a weeks worth of growth. Also, regular waxing encourages hair to grow on the same cycle; this ultimately slows down and thins re-growth.

Our Mission Statement

...Expect excellence. Our priority is to provide you with exceptional services in a relaxing and peaceful atmosphere. We offer products that are based on the latest, most innovative research and technology. Each treatment is designed with your personal needs in mind, to exceed your expectations and deliver exceptional visible results.

Facials

Deep Pore Cleansing \$60

The focus of this treatment is to cleanse the skin's pores of unwanted build-up and debris. It is especially recommended if this is your first facial. If it has been a while since your last facial, or if you are about to begin a skin resurfacing series, concentration will be placed on deep cleansing of the pores, extractions, and restoring the skins' pH level, to avoid any irritation. We will choose a mask specifically designed for your individual skin type, followed by a nourishing moisturizer.

Acne \$65

Designed specifically for clogged, congested, and acneic skin. A unique combination of enzymes and steam help to exfoliate and remove dull surface skin cells, while superior botanicals and Salicylic Acids help reduce future breakouts, control oil production, and heal the skin. Recommended for acne prone skin of all ages.

Back Facials Starting at \$55

Our full or partial back facials offer revitalization with surface cleansing and exfoliation. Back facials can be upgraded to include Dead Sea Mud to detoxify, or paraffin to help increase moisturization. A luxury for relaxation in addition to the cleansing benefits.

Especially for Him \$65

Sportsman Executive Facial
Similar to the basic facial, but designed for men, this deep cleansing and purifying facial consists of exfoliation, hot towels and extractions where needed. A face, neck, and shoulder massage relaxes tense muscles, leaving the skin both smooth and refreshed.

Pampered Princess \$45

Especially designed for those 10-14 years of age. This mini facial introduces basic skincare. A fun and educational primer for a lifetime of healthy skin.

Specialty Facials

Signature 4-Layer Facial \$75

Our Premier anti-aging treatment of the century. Experience layer upon layer of pure, fresh European seaweed to rejuvenate, tone, and help firm the skin dramatically and long-term. Two soothing massages and a cool, aqua-green seaweed masque, followed by a warm mineral-rich thermal masque will leave you with younger looking skin that is nourished with visible moisture.

Enzyme Performing Masque \$65

This non-acid, natural biological peeling masque, suitable for all skin types, produces immediate, spectacular results, by removing dead cells and keratin accumulations, softening and loosening blackheads and sebaceous cysts. Enzyme performing masque retexturizes skin, smoothes fine lines and makes wrinkles and post-acne scars less visible.

Medical Grade Skin Treatments

Today's skin resurfacing techniques rid the skin of several layers of buildup, resulting in a more youthful appearance and revitalized skin. Lines and wrinkles are diminished, revealing a brighter, healthier looking skin. Skin's texture is smoother and a radiant glow is restored. All of our Medical Skin treatments are sponsored by our medical director.

Each technique is individual and offers its own unique components and benefits. As always, we offer a complementary skin analysis and consultation to determine the most effective treatment for your concerns and skin type. We will customize a treatment plan especially for you!

Microdermabrasion

A small wand containing aluminum oxide crystals is used to polish the skin during this treatment which stimulates fibroblasts in the skin, resulting in increased collagen and elastin production. Simultaneously, the wand vacuums unwanted cell buildup and debris. Results and benefits include: smooth skin, reduction in appearance of fine lines and wrinkles, sun damage and signs of aging, dramatically decreased. Microdermabrasion also helps diminish the appearance of scars incurred from stretch marks and/or acne. Treatment most beneficial when performed in a series of 6-12.

SkinMedica Peel System

The SkinMedica peel treatment brings the benefits of AHA's and retinoic Acids in a unique blend to create one of the strongest safest peels. Even after one peel you will begin to notice a dramatic improvement in your skin's texture and tone, lessening of superficial lines and a healthier more youthful look & feel. The renewal process has been clinically proven to help pigmentation problems (such as age spots) fade and stimulate collagen production in the cells underneath.

Illuminate Peel \$85

This non-invasive, very superficial peel utilizes a novel approach to chemical peeling with a newer generation of alpha hydroxyl acids (Mandelic and Malic Acid) in combination with Phytic Acid and commonly used peeling agents (salicylic Acids and Resorcinol) to maximize skin rejuvenating effects with low irritation.

Vitalize Peel \$125

Vitalize Peel is a very superficial peel requiring little or no downtime for the patient. The formulation includes a unique blend of peeling agents: alpha-hydroxy acids. Beta-hydroxy acids, and resorcinol. Retinoic Acids is added as a final step.

Rejuvenize Peel \$175

Rejuvenize Peel is a superficial peel that penetrates into the deeper layer of the epidermis and produces the most exfoliation. The formulation includes a unique blend of peeling agents: alpha-hydroxy acids, Beta-hydroxy acids, resorcinol and retinoic acid.

Glytone Glycolic Rejuvenation Peels

The highest medical level of "free" glycolic Acids for effective skin rejuvenation. A step-up approach offers increasing levels of glycolic acids to provide clarity and evenness of skin tone, smoothes rough, uneven skin texture and reduces the appearance of fine lines and wrinkles with minimal irritation.

Skin Rejuvenation with Omnilux™

Although the ageing of our skin is a complex biological process there are two main causes: chronological ageing - the effects of time on our bodies; and photo-aging - the effects of the sun's harmful rays.

As we mature, the amount of collagen, the major supporting protein of the body, diminishes. In addition, the skin becomes less flexible. This means that our skin becomes drier and thinner as the body's natural regeneration process slows down, and the skin slowly loses its ability to retain moisture.

These effects are further compounded by the harmful UVA and UVB rays in sunlight. These damage the skin by producing enzymes that break down the skin's supportive structure and so prevent the creation of new collagen.

Successfully restoring the skin overcomes the effects of time and exposure to the sun by stimulating the creation of new collagen. It also aids the detoxifications of the skin. And this is where Omnilux™ plays such a unique and valuable role.

Omnilux™ delivers a totally natural method of light-only skin rejuvenation which uses the body's own natural processes to help counteract the effects of aging. Unlike some anti-aging treatments that work as a result of the body's response to damage, Omnilux™ stimulates natural processes to rejuvenate the skin.

Omnilux™ can be used after microdermabrasion, facial peels, and laser and Intense Pulsed Light (IPL) Therapy, reducing the side effects and speeding up the time your tissue takes to regenerate. Omnilux™ can also be used in combination with your regular facial treatments and with injections such as Botox™ and fillers, helping to maintain the effect of the treatment.

The "Vi" Peel \$350 each

Would you like radiant, youthful skin in just one week? Try The Vi Peel that will give you Superior results. The Vi Peel reverses the effects of sun damage, improves the tone, texture and clarity of the skin. The peel is virtually painless and has minimal or no down time.

Intense Pulse Light

IPL is a gentle yet effective, FDA approved method for a variety of benign skin conditions including age spots, sun induced freckles, symptoms of rosacea, acne scarring and other blemishes. This treatment addresses the effects of photo aging and sun damage with low risk of complications and no recovery time.

IPL - Photofacial \$125 each \$650 Full Treatment Sessions (6 visits)

Your Photofacial delivers special wavelengths of light with heat that restores smoother younger looking skin. IPL treatment technology has been used successfully for benign brown and red blemishes, broken blood vessels, uneven skin tone, rough skin texture and other common skin conditions. If you've been touched by time or sun...this treatment is for you!

"Spider Vein" Removal \$50

Broken capillaries or vascular blemishes are small, permanently enlarged capillaries that lie in the upper dermis and are usually dull to bright red. The "Bono Blend" method unites two currents applied together simultaneously to promote the removal of the vascular blemishes. *Some individuals may require multiple treatments.
